Whether you are looking to recruit an individual, a team, a new project or branch opening, we have a tailored solution for you; from delivering on an individual search assignment through to Recruitment Process Outsourcing and Market Intelligence.

#### Highest quality service and solutions

Our strength lies in our ability to work with our clients to identify and understand their differing needs, research organisational values and structures to ensure an ideal fit when placing candidates. We possess an intimate knowledge of our various marketplaces to develop our networking and strong candidate search practices to consistently attract candidates of the highest calibre.

#### Industry expertise and experience

Our processes incorporate a fine mix of commerciality, creativity and due diligence. Customer service is fundamental to all aspects of our operations so we work hard to take the pain out of the process for our clients. Our Consultants have strong commercial acumen coupled with significant recruitment expertise to ensure skill suitability in analysing and understanding your needs and evaluating candidates. We have a reputation for being able to deliver on difficult assignments and frequently succeed where others have failed.

Offices in key locations across Asia, Australia and Europe.

Our consultants in each of our locations have an in-depth knowledge of local recruitment practices as well as a detailed insight into the talent supply available to key industries and functional areas both locally and globally.
