Our clients represent virtually all sizes and types of resource companies across the mining life-cycle. We've conducted searches at all levels from corporate management through to site based staff in locations including Australia, Indonesia, China, Mongolia, and Malaysia amongst others. We concentrate on middle to senior level appointments across all of our key practice areas, and we have extensive experience of the development and delivery of key search campaigns.

Placements include

- Mine Supervisor
- Mine Planning Engineers
- Drill and Blast Engineers
- Mining Engineers
- Geologists
- Mine Surveyors
- Control Systems Engineers
- Control Systems Engineers

Our Consultants, based in our network of offices across Asia Pacific, Australia and Europe have a comprehensive knowledge of mining recruitment, candidate assessment, and relocation logistics. This ensures both our clients and candidates achieve success in the global marketplace. Whether you are looking to recruit an individual, a team, a new project or branch opening, we have a tailored solution for you; from delivering on an individual search assignment through to Recruitment Process Outsourcing and Market Intelligence.

Highest quality service and solutions

Our strength lies in our ability to work with our clients to identify and understand their differing needs, research organisational values and structures to ensure an ideal fit when placing candidates. We possess an intimate knowledge of our various marketplaces to develop our networking and strong candidate search practices to consistently attract candidates of the highest calibre.

Industry expertise and experience

Our processes incorporate a fine mix of commerciality, creativity and due diligence. Customer service is fundamental to all aspects of our operations so we work hard to take the pain out of the process for our clients. Our Consultants have strong commercial acumen coupled with significant recruitment expertise to ensure skill suitability in analysing and understanding your needs and evaluating candidates. We have a reputation for being able to deliver on difficult assignments and frequently succeed where others have failed.

Offices in key locations across Asia, Australia and Europe.

Our consultants in each of our locations have an in-depth knowledge of local recruitment practices as well as a detailed insight into the talent supply available to key industries and functional areas both locally and globally.
